Politics Legalized On N.B. Campus

One Club to Represent the Three Parties

Fredericton, N.B. — (CUP) — Students and politicians finally arrived at a compromise concerning political clubs on the UMB campus when the Students' Representative Council accepted a constitution submitted at last Friday night's session.

A new political club resulted from the fusion of three groups: University Progressive Conservatives, University Liberal and the C.C.U.F. The clubs, until this time, had been operating illegally on the campus.

The newly organized club was admitted to the campus only after it had sacrificed party lines to a common political interest. The acceptance of the group was not accompanied by the furious debate which has marked political questions in the past but met with general approval by the Council members.

Members are not required to drop their federal affiliations however. Nor is membership in any of the old clubs necessary for admittance to the new one.

Common Purpose
The common purpose uniting the three at present is the wish to organize discussion groups on the campus; to arrange for model parliaments and to bring in outstanding political speakers. Neither of the latter two items are to be carried out without the sanction of the SRC.

The political issue has been a red hot one until quite recently at this university. Last term political issues were the subject of some of the bitterest exchange in Student Council history. A complete issue of The Brunswickian, the student newspaper, was devoted to a presentation of the question.

The clubs' bid for separate recognition was turned down by a slim majority of the Council members. A little less than a year ago a similar bid by the CCUF was also turned back. The new club was designed to eliminate the segregation which would follow the setting up of separate organizations.

Reasons Favoring Recognition
Probably the most obvious reason for the establishment of political clubs on the campus is the demand. A considerable number of students feel the need for the recognition of political clubs within which they can study, discuss and generally become more aware of Canadian political institutions.

Other Reasons Advanced were:
Participation in political activity is a necessity for good citizenship.

Controversial Issues Barred 'Parliament'

Toronto, Ont. — (CUP) — Political parties at the University of Toronto have been informed that they cannot debate controversial provincial issues at their mock parliament in the Ontario Legislative Chambers this coming Thursday.

Because they cannot debate the repeal of the Charitable Gifts Act, the Liberals, who were to have acted as the government, have resigned.

No information as to the new government or possible new available has last night.

The Charitable Gifts Act, which limits the amount of a legacy that can be given to charity and thus escape succession duties, has been a "hot issue" in Ontario ever since it was passed.

It has been claimed that the Act was aimed directly at the large legacy of the late J. S. Atkinson, publisher of the Toronto Daily Star, which was all left to charity.

In announcing the withdrawal of the Liberals as government of the mock parliament, President Bradley said: "We disagree with the ruling, and under these conditions we don't feel that we can be the government."

Speaker of the Legislature, Davies, who made the ruling said it was government policy not to let anyone but the government debate controversial issues in the law-making chambers.

McGill Dates Committee To Expand Its Scope

The McGill Dates Committee is expanding its scope so as to act as a central date bureau. It was announced yesterday by the chairman, Boris Gardavsky. Letters have been sent to all the major organizations which affect McGill students asking for their assistance.

In an effort to obtain some degree of balance between the many activities going on at the McGill campus and affecting McGill students, it was felt that by expanding the present McGill Dates Committee and its function a much greater coordination might be achieved.

The purpose sought was to have all organized groups on the campus or those in which McGill students form a majority, submit a list of their major events and their dates which they plan to hold during the coming year to the committee.

Red & White Revue Ticket Sales Begin

Tickets for this year's Red and White Revue, "Subway or Other" will go on sale today at noon at the Central Ticket Office.

This year's show, a fast moving satire on Montreal's aldermen and other prominent civic personalities such as nite club operators and class business operators promises to provide a good evening's entertainment.

Roy Wolvin, having done his usual more than competent job on the music which will be presented by Rusty Davis, who is well known to Montrealers and Canadians in general through his work on the C.B.C.

Tickets going on sale will be priced at \$1.55 and may be obtained for any one of the six performances being held from January 23 through 31 inclusive (except Sunday).

Guest Speaker, Prizes At Engineers' Banquet

The Engineers' Banquet is to be held on Thursday, January 19, in the Legion Hall, at 1191 Mountain Street. Guests and a prominent speaker will be present at the banquet, due to start at 8.45 p.m., chairman Dave Floyer, announced yesterday.

A smoker will follow in the Union Ball Room at 8.45, organized by Harry Filiatrault, E.U.S. treasurer, during which refreshments will be sold at low prices and professional performers will entertain for fifty minutes.

Tickets at \$2.00 for both banquet and cabaret smoker, are on sale in the Engineering Building. For the lucky ticket holder there will be a door prize comprising two tickets for the Plumbers' Ball, a course donated by Louis Quinze, dinner for two at the Chicken Coop, and the free use of a dress suit from Classy Formal wear.

GOAL GETTERS for Dave Campbell's Redmen in Friday night's game against Queen's at the Forum were the smiling six in this post-game dressing room picture. Back row, left to right, are Lenny Kent, Dawson Tilley, Brian O'Neill, and Rocky Robillard. The front row has George Andrews on the left and Gene Robillard on the right. Evening's point-makers were O'Neill with two goals, Gene and Rocky Robillard with a goal and two assists.

Robillard. The front row has George Andrews on the left and Gene Robillard on the right. Evening's point-makers were O'Neill with two goals, Gene and Rocky Robillard with a goal and two assists.

Injured Student Needs Blood: Donors Wanted

Dean H. N. Fieldhouse has issued an urgent appeal for blood donors in response to a request from St. Luke's Hospital where John Chong, a third year science student, is being treated for serious first degree burns, suffered last Thursday morning when fire swept his apartment at 290 Sherbrooke St. West.

Firemen found him overcome by smoke in front of the building where he apparently ran to escape the flames. After treatment on the spot, Chong was rushed to the hospital in serious condition.

A check with hospital authorities last night revealed that Chong's condition remains unchanged since Friday. He has already had plasma transfusions but the slow response to treatment has necessitated an appeal for further blood donations.

The victim is a pre-medical student and has been studying on the home campus after two years at Dawson College. In addition, he has behind him several years of service in the underground in Malaysia.

DEAN'S NOTICE

Mr. John Chong, a student in the third year of the B.Sc. course, is in St. Luke's Hospital suffering from severe burns. Blood donors are urgently required and are asked to go to St. Luke's Hospital today between 12 and 3 p.m. and ask for the Operating Nurse.

H. N. FIELDHOUSE, Dean.

The victim is a pre-medical student and has been studying on the home campus after two years at Dawson College. In addition, he has behind him several years of service in the underground in Malaysia.

Placement Service Interviewing Students

As a special service to both graduate and undergraduate students, The Daily is carrying each day a list of people representatives of the National Research Council wish to interview January 19 and 20.

These interviews will include discussion of immediate employment, fellowships, future research plans and other topics. It is therefore important that all persons listed visit the Placement Service, 3574 University street, immediately to arrange a definite time and place for an interview. Everyone concerned must have a definite appointment before next Wednesday.

F. L. Mitchell Lecturing on Paper & Paper

Frank L. Mitchell, O.B.E., B.Sc., M.E.I.C. Manager of the Canadian Pulp and Paper Association, will be the first lecturer in the new series sponsored by the Pulp and Paper Research Institute of Canada, through special arrangement with the University at the Lecture theatre of the Chemistry building, at 5 o'clock tomorrow.

Mr. Mitchell's lecture will emphasize the importance of pulp and paper in Canada's economy, from such standpoints as production, exports, employment, and world trade. He will discuss career opportunities which the industry offers directly to chemists and engineers, and the interest it holds for those in ancillary and other industries. Mr. Mitchell's lecture will be illustrated, and will be followed by the showing of a technical documentary, "River of Paper" which features pulp and paper activities on the West Coast, illustrating operations in the forest and processes in the mills.

This series of eight lectures has been specially arranged for engineering students, but faculty members, and other undergraduates who are interested in the pulp and paper industry are cordially invited to attend.

Varsity Given Grant to Study Poliomyelitis

Toronto, Ont. — (CUP) — A March of Dimes grant, of \$28,900, to the Connaught Medical Research Laboratories of the University of Toronto is expected to assist in the search for an anti-poliomyelitis vaccine, said President Sidney Smith of U. of T. recently.

To Develop Anti-Serum
The money will finance an attempt to develop a high strength polio "anti-serum," for possible protection against the disease. (An anti-serum neutralizes a disease virus, head of the School of Hygiene, Dr. R. D. Defries says.)
A team of scientists, headed by Dr. Andrew J. Rhodes, Associate Professor of Virus Infections, whose polio research has been supported since 1948 by the National Foundation for Infantile Paralysis, will do the work in the Virus Labs of

Dancing, Donuts, Contests Cokes for Junior Informal

Third year Arts and Science is sponsoring a Junior Informal party in the Reading Room of the Union tonight at 8.30, admission 25c. The objective of this Party is meeting the people who've been sitting next to you in lectures for the past three years, and a special invitation is extended to the Dawson boys in the city for the first year to meet the people they will graduate with.

The party is officially stag with music to be supplied by a record player. The Junior year executive have lined up excellent entertainment including a professional entertainer and several class members. Last year's president Peter Pangman is scheduled to act as master of ceremonies. He will be assisted by several other Juniors.
Another feature of the evening will be novelty dances and contests. The prize giving committee is Robin McKay, who has promised that the prizes will be at least as novel as the contests.

Faculty Announces Concert Friday Eve

A concert of chamber music will be given at Moyse Hall on Friday, January 20, at 8.30 p.m., the Faculty of Music has announced.

The programme, which will include works by Mozart, Debussy, Stravinsky and Bartok, will feature the first public performance in Montreal of Stravinsky's sonata for two pianos, and Bartok's Sonata for two pianos and percussion.

Tickets, priced at \$1.00, \$1.50, and, for students, at 75 cents, may be purchased at the Conservatorium of Music, 3450 Drummond Street, or at Lindsay's or Archambault's.

The concert will be given by Jeanne Landry, pianist; Istvan Anghall, pianist and conductor; Jean Boaudet, pianist; Louis Charbonneau, percussion; and John Nadeau, percussion.

Cancer Society Aids Radiologist's Research

The board of directors of the Canadian Cancer Society announced Friday a grant in aid of post-graduate study to Dr. Jean Bouchard, assistant professor of radiology at McGill University and radiologist at the Royal Victoria Hospital, Montreal, and a special Kinsmen Club fellowship to Dr. Paul Emile Cote, assistant in radiology at the Hopital de l'Enfant Jesus in Quebec City.

The announcement said these had been made possible through the generosity of the Association of Kinsmen Clubs, which three years ago gave approximately \$50,000 to the Canadian Cancer Society for the post-graduate training of specialists in radiation treatment of cancer with X-rays and radium.

Dr. Bouchard, the announcement said, is investigating methods of research in the treatment of surface cancer with low-voltage X-rays, and radioactive isotopes in several centres in the Eastern United States. Dr. Cote will go overseas early this year for a year of post-graduate study in cancer treatment centres of the United Kingdom, Scandinavia and France.

Hockeyists Chalk Up Initial Win, Beating Queen's, 7-3

Principal to Welcome Guests On National Students' Day

Dr. C. F. James, Principal and Vice-Chancellor at McGill will give the opening address on National Students' Day, Saturday, January 21, which is being held under the auspices of the National Federation of Canadian University Students.

The meeting to be held in the Union Ball Room, will begin at 2 p.m. The Principal, an honorary President of NFCUS and President of the National Conference of Canadian Universities, will welcome students from Laval, Bishops, U. of M. and MacDonald as well as McGill.

The other guest is Dr. Leon Lortie, professor at the University of Montreal. Dr. Lortie was also connected with NCCU and is at present an active participant in International Student Service work. He is the Dean of the Quebec Seminar to be held this summer at Fort Lennox.

This conference is in the interest of McGill students and especially to the leaders of clubs and societies. NFCUS is attempting to sound out interest on the national and local aspect of Student Welfare in Canada and the conference will concern these main points: Student Exchange Scholarships and National Affairs, NFCUS work at McGill and Student Summer activity.

Materials will be made available in the NFCUS library, opening in the Union tomorrow in order that students may get-up on what has been done in these fields in the past.

The program for the conference will commence at 2 p.m. on Saturday under the chairmanship of Len

Harbour, co-chairman of the N.F.C.U.S. committee

At 2.30 the Commission groups will get under way:
Commission 1. Dealing with Student Exchange and International Relations. The leader is Dr. Lortie—the chairman, Norm Buchanan and George MacClintock.

Commission 2. NFCUS at McGill dealing with the Federal Aid to higher education scholarships and loans to student opinion, under the leadership of Rev. Clifford Knowles Chairman, Len Harbour.

Commission 3. Student Summer activity — dealing with Summer Schools. Travel rates and seminars under George Stephen.

At 3.30, the Plenary Session will begin where the findings of the Commissions will be presented. At 4.00 Dr. Lortie will speak on the Quebec Seminar.

NOTICE

The computing exam in Psychological Statistics (Psychology 22A) will be held on Tuesday, January 17, in Room 304, McConnell Hall. The list of times is posted on the Arts building noticeboard and on the Psychology noticeboard in McConnell Hall.

Grants Given For California Great Britain

London, Ont. — (CUP) — Do you want to go to Britain this summer? Would you prefer to spend the next winter in California?

Through the generosity of Governor-General Viscount Alexander, students who wish to pursue graduate studies in any department of the University of California may complete for one of two new scholarships.

Two graduate scholarships of \$1,000 each for the academic year 1950-51 are open to Canadian students. Holders of the scholarships will be exempted from the university's non-resident fees.

Application forms may be obtained from the Dean of the Graduate Division, University of California, Berkeley 4, California. Completed forms must be returned on, or before, February 20, 1950. Awards will be announced April 1, 1950.

Canadian students may also apply for a £60 bursary being offered by the British Council. It will be used to pay expenses at a British summer school. Application forms may be obtained from T. H. Matthews, secretary of the National Conference of Universities. Forms should be completed and returned before February 15.

Students applying for the bursary should state their reason for wishing to attend a British summer school and why they need the bursary to do so. Nominations will be made in Canada by a selection committee appointed by the executive committee of the National Conference of Canadian Universities. Courses offered are listed in a pamphlet obtainable in the Registrar's office.

Arena Wing Staging 'Ghosts' Hold Casting Meeting Tues.

The Arena Wing of the McGill Players' Club will be staging a production of Ibsen's "Ghosts" early in March. It was announced last night by Austin Caverhill, president of the club, and a preliminary casting meeting, open to all students, will be held tomorrow, Tuesday, in the New Room of the Union beginning at 7.30 p.m.

It was also announced that the Arena Wing had secured the services of Mrs. Norma Springford as director of the production. Mrs. Springford is well known in theatrical circles in Montreal, and is the permanent production manager of Open Air Playhouse Inc., the organization which presented "As You Like It" on Mount Royal last summer. She has also been connected in the past with M. R. T. and the Canadian Art Theatre as a teacher and director.

By IRWIN GUTTMAN

Is Impressive

Jimmy Adams has seen quite a few McGill hockey teams come and go in his time. James is the team trainer and also works in that capacity for Vic Obeck's football crew.

Jim was quite enthused, as were two thousand other spectators who braved the stormy night, the way McGill took the Golden Gaels of Kingston to the tune of 7-3. His happy comment after the game was "Well, we're still undefeated in the new year."

That mighty impressive win lifted the Redmen out of the cellar into a third place tie with the Queen's boys, but the McGillians have a game in hand over the Gaels who lost to U. of M. on Saturday 9-5.

Clan Campbell's boys were obviously a vastly improved team over their last appearance on home ice when they succumbed to the second place Toronto Varsity Blues, 5-1. They showed three impressive lines, each of which has a man who can put the puck into the net.

Improved Team
The play of the defencemen was to say the least, mighty impressive. In short, the Redmen served notice to the rest of the league that they are a power to be reckoned with in the race for Senior honors.

The game was just three minutes and fifty-four seconds' old when Captain Murray of the Gaels, who incidentally was the best man on the ice for the Kingstonians, took the puck of a scramble in front of the net and using the McGill defence as a screen fired the puck past MacLellan in the McGill goal.

Five minutes later, however, Gene Robillard took a double pass from Tilley and Murphy, swung around the net, faked a pass to left winger Len Kent but shot it into the bottom left hand corner instead, tying the game up at one all. Forty-seven seconds later, Kent angled in a shot from a blue-line pass from Gael defenceman Hews and the Queen's boys led 2-1. Brian O'Neill quickly tied it up again when he deflected a hard shot of Dawson Tilley's into the net, and Tilley followed this play up with a blazing long shot which caught the right hand side of the net, and McGill never looked back after that one.

The period closed without further scoring and McGill led 3-2. **Redmen Dominate**

The Redmen completely dominated the play in the second period, scoring three goals behind the bewildered Norm Urle in nets, to the Chouinard coached Gaels none. With 59 seconds of the period gone, O'Neill scored his second goal of the night, looping a shot over the prostrate Urle who had saved brilliantly off Marshall, Rock Robillard also drew an assist on the play.

McGill continued to put on the pressure with Kent driving one over the top cross bar and Urle making two sensational stops off Murphy and Kent. Battistichio went off for holding and on the face of deep in the Queen's territory, Rock Robillard grabbed the loose puck, fired on the net and sank his own rebound, putting McGill ahead 5-2.

HELP WANTED

Although The Daily never has an adequate number of staffers, it has been possible to provide sufficient campus coverage to draw the praise of the judges in the recent Canadian University Press assessment of student newspapers. Now, however, the staff situation is approaching the serious stage.

The shortage of people who will go out to cover the various events and also help with the actual production of the paper during the evening has put an excessive load on senior staffers.

Positions on The Daily staff are open to anyone willing to work one day a week. Newcomers are given special attention at a series of meetings held away from the frantic hustle of the news office. The first of a series of talks on reporting, preparation of copy, and office routine will be given next Thursday evening at 8

o'clock in the New Room of the Union.

In addition to these short, preparatory series for newcomers, there is a senior staffer on duty each evening specifically assigned to assisting beginners with their stories.

The training in setting down facts in a clear readable fashion, in assembling information from a variety of sources, in interviewing people and in learning to work well with others is a valuable asset to students aiming at every profession. The Daily staff is drawn from every faculty in the university and The Daily continually hears from former staffers who have found great value to their training on the student newspaper.

Previous experience is not necessary. If you have a yen to write, fill in the form to be found elsewhere in today's Daily and attend the beginners' meeting next Thursday evening.

C. K.

The I.U.S. Issue

DUTCH DELEGATION WALKS OUT

Foreword

This is the third part of a series of articles to be run by The Daily to acquaint readers with the history, organization, and the International Union of Students and its relations with the National Federation of Canadian University Students. The question of whether or not the IUS should join IUS (which should not be confused with International Student Service) has been a controversial issue on Canadian campuses for several years. The whole question may become a major issue again when Canadian students are asked for their views on sending a Canadian delegation to the World Student Congress to be held in Europe this summer. This series on IUS was written by Jack Gray, news editor of The Toronto Varsity.

The political slant in the newly formed International Union of Students, which had shown itself even before the Constitution was adopted, at the World Youth Congress held in Prague in August, 1946, became more evident as the Congress proceeded.

"Blocs" Soon Appear
Miss Catherine McLean, who attended the Congress as a delegate from the Canadian Federation of Newman Clubs spent a large section of her report dealing with the voting procedures used in Prague, and the "blocs" into which the nations represented soon divided. She reported:

"From the very first important issue that came up to the last, one could almost draw a definite line in the hall and predict who would vote which way on any issue. From the first proposal of the Russians or Yugoslavs that met with any opposition and required a vote, the following general division was seen. Supporting the Russians and Jugo-

slavs were the entire delegations of Czechoslovakia, Bulgaria, Egypt, Indonesia, Iran, Mexico, Mongolia, Poland, Roumania, and Spain (the Spanish delegations were all from outside Spain). The following delegations were divided: British, American, Cuban, Indian, Italian, French, Norwegian, New Zealand, Dutch, Irish and Chinese. (Some delegations are not mentioned because it was impossible to ascertain how they were voting.)

Canadian Delegates Split
"The Canadian delegation requires special mention. They were: Mr. Guy Rocher of the Jeunesse Etudiante Chretienne, Mr. Paul Gerin-Lajoie of The University of Montreal, Miss Dorothy Beales of The Student-Christian Movement, Miss Catherine McLean of The Canadian Federation of Newman Clubs, and Mr. Gordon McLean of the Canadian Student Veterans Association. On all issues of any importance the first four voted together, opposed to the "bloc," Mr. McLean voted on the other side, with the "bloc."

Gord McLean, a University of Toronto student, was connected with the L. P. P. Club at Toronto. He later organized the Toronto Committee of the National Federation of Canadian University Students, and according to reports did a very good job. While at Toronto he was a controversial figure, mainly because of his political views. It was McLean however who was elected to the Congress to represent Canadian students on the IUS Executive, after Mr. Lajoie's name had been proposed, and then withdrawn by the British delegation. It did not seem at the time that McLean was the most "representative" of the group, according to Miss McLean (no relation).

The Dutch Walk Out
The Dutch delegation walked out of the World Youth Congress in 1946, refusing to take their seats on the IUS Council. Their statement at that time was to be the basis on which most of the fourteen "western" nation student unions refused to join IUS, or left the organization. It reads in part:

"The Dutch Delegation regrets very much this decision, but it has been taken unanimously because of the fundamental objections against the foundations of the constitution and against the tendency of this Congress.

"Every minute of this congress we are talking about democracy and the fight against fascism in all its forms, but you may depend on the following: we in Holland know the idea of democracy, but that is something quite different from the policy of domination that some groups have shown at this congress towards the minorities.

"...although the acting on majority decisions must be called a democratic procedure, it is not complete without the following: the maintenance of the rights and privileges of the minority."

Pattern Set For West
So the Dutch did not become members of the IUS. The union set up at Prague displayed a split from its very beginning and showed that the political backgrounds of its members were to prevent the IUS from finding the common basis for work and agreement which would have produced the best "international" student group, the one which would be most acceptable to the greatest number of students, no matter what their policies were.

The communists won the first round, as they were to take every succeeding one, and Canadian students began their two-year trek along the road to "frustration, failure, defeat, regret, humiliation and confusion."

lighted appreciation of the telegrams I received from the Council of the MWSAA and the Dept. of Athletics, Phys. Ed. and Recreation and from Miss Bean who showed such kind interest in the Canadian Fencing Championships and B.E. Games Trials.

The team has been royally received in Vancouver and there is every indication that Canadian athletes will work very hard to perform creditably.

Betty Hamilton, (Kupic) Canadian Fencing Team, British Empire Games, Auckland, New Zealand.

Editor, The Daily: I should like to express through the columns of The Daily my de-

Maths and Physics

by Don Allen

Poetry by Albert McCormick

People say that no one in his right mind would take an hours course in mathematics and physics. This claim is so obviously false that I set out right away to prove that it was entirely nonsense.

When a thing is difficult to prove, the proper procedure appears to be to state the hypothesis preceded by the word "obviously", and then to omit the proof. It may not be "obvious," I decided, but I'm going to prove that Math-Physics students are perfectly normal human beings.

I sought my "proof" in an interview with a typical Math-Physics student. I walked into the Electricity Lab on Tuesday afternoon and looked around. At the first table I saw a fellow and a co-ed busily charging a capacitor through a resistor. That isn't what it looked like they were doing, but they pointed to the heading on their experiment sheet and I decided not to argue.

I first interviewed the co-ed. "Doesn't it seem strange to be the only girl in a class of 18?" I asked. "Why are you taking this course?" "I'm in a class with 18 men. . . and he asks me why I'm taking this course!" she exclaimed. I decided that she was perfectly normal and turned to interview her partner.

He stood there, silently, looking at the dials on the meters. "Your name?" I asked. He still said nothing, but I saw "Lionel S. Lustgarten, B.Sc. II., Hon. Maths & Phys., R. I. P.", written on the cover of his lab book.

"This had better do it," he muttered as he reached across the table and turned a dial. There was a blinding flash. His condenser condensed, his fuses fused, and the needle of his microammeter spun merrily around. Across the terminals of the 135-volt power source little blue sparks jumped back and forth. He merely watched and smiled. The wires started to melt and big drops of copper splashed to the floor. "This can't be happening," he argued, "the current's too low."

To prove this claim he grabbed the two ends of the melted wire in his hands. "See, nothing happens!" he exclaimed as his eyes repelled one another, his hair stood on end, and a halo of electrons spun around his head. His partner reached her

arm across the wreckage to turn the dial and everything was quiet.

Lustly still wasn't discouraged. He walked round and round the table, juggled three batteries and started muttering: "I cannot employ profanity Nor can I plead insanity Yet I am asked to wisely state Why I have made Math-Fizz my fate."

I always have admired how the Egyptians have attired Their pyramids and cones with heliographic physics.

But now my demented state of mind Made me unfortunately find It's not the same as epilogues, or physics.

The x's and y's have almost come alive And for their names in vain I work and strive.

And yet I don't despair— I merely sit and tear my hair— But alas, the roots of the equations are not there.

Now, there is one consolation that relieves my desolation: When my term has expired and I am old and grey and tired As I cross o'er the Wheatstone Bridge.

The current flowing gently 'neath the ridge, I'll face the world, so calm so cool, I'll clench the bars and then I'll drool:

"Oh, how could I have been so great a fool?"

"A typical maths-physics student," I remarked to the fellows at the next table. Lusty, struggling and babbling excerpts from the Greek alphabet, was being led away by two unidentified internes from a local hospital which specializes in former Maths-Physics students.

"What really finished him," remarked his neighbour, "was the professor who told us that we should all spend at least two hours every day on his subject. On that basis Lusty figured out how he could work everything into a 29-hour day. He was happy until someone reminded him that he'd forgotten to leave time for his lectures."

I walked slowly over to my table. I threw the switch on my capacitor . . . and that's really all that I can remember. You see, I, too, am taking an honours course in mathematics and physics.

Music This Week

by J. Kohos

Last week Montreal's post-holiday musical season reopened with the McGill String Quartet recital at Moyse Hall. The varied works offered were a Haydn quartet, the Brahms clarinet quintet, and a new quartet by the Canadian composer Andrew Twa. The Society should be warmly congratulated on the inauguration of its new policy of presenting new Canadian music to its subscribers.

The ensemble work of the McGill Quartet has improved greatly during the past season — so much so that it is no longer necessary for the violins to dominate the group in order to hold it together. This was evident last week when listeners for the first time heard the viola and cello emerge in the proper places shedding new light on the capabilities of these two instruments.

As regards interpretation however, for our taste, there was a tendency to overdo phrasing nuances, in the Haydn and the Brahms, which caused the overall line to be broken into too many small sections. The style was more suited to a large, resonant body of players than for an intimate group. The tonal sensitivity of the clarinetist, Ralph Masella, was most gratifying.

It would be presumptuous for us to attempt to criticize or to evaluate the Two quartet. Despite its rhythmic complexities, however, we found the music generally innocuous and mildly enjoyable. We felt that the music was deprived of its latent humor in the first and third movements by the over-deliberate and conscientious reading it was given. The lyrical cello and viola sections of the slow movement were sympathetically projected, the sombre colorings of which these instruments are capable being fully exploited by both the composer and the performers.

We should like to be permitted to suggest, to whoever was responsible for the fiasco on the stage, that it is difficult enough for an audience to listen to new music attentively without having the instrumentalists drop and drape their music about the stands and the stage. Surely the copyist could have been enjoined to do a more intelligent and practicable job of preparing the parts from the manuscript.

We regret that an indisposition prevented the presentation of the Busch-Serkin Quintet Sunday afternoon. The program would surely have been one of the highlights of our musical season.

This Friday evening there will be a recital at Moyse Hall featuring music for two pianos by Bela Bartok and Stravinski. Since this music will receive its first local "Live" performance and the participants are all excellent musicians, the concert should prove interesting. Student tickets are on sale at the Faculty of Arts and Science.

Features Staff Meeting

A general meeting of the Features Staff will be held on Monday, January 16, at 7.30 in the Union. The meeting will include a talk on Makeup and Layout by John Scott. All Features Staff are required to attend.

culty of Music, 3450 Drummond street, at only 75 cents.

The Carnegie Music Room at the Faculty of Music has been made ready for students for some time now. The room houses a large, varied collection of recordings to please any and all tastes—from pre-Bach to Bartok and even some Basie. There are operas, symphonies, chamber music, sonatas, piano music, some Gilebert and Sullivan, lighter music in overtures, ballet music, some selections from the Anthologie Sonore, many lieder, folk music, and an album of music of the Orient, Ball, Java, Borneo, China, Japan, in short—you name it and the collection is almost sure to have it.

The room also contains a large collection of pocket scores of most of the larger works in the record library for the use of any who may be interested.

Listeners are free to lounge about on three comfortable pieces of upholstered furniture.

There is however one catch to all this luxury. Listeners are permitted into the room only in the presence of Supervisors. So far, unfortunately, not enough students have volunteered to act in this capacity. So if there is some section of your timetable when you would be free regularly, and you like to do your studying to the accompaniment of recorded music, visit the Faculty on Drummond street and sign up as a Supervisor. You will be doing yourself and others a good turn.

PRAISE FOR FIRE DEPARTMENT

Editor, The Daily:
On behalf of John Kenneth Chong, B.Sc. III., who at present lies critically ill at St. Luke's Hospital, we, his friends, and spokesmen for Ken, and the entire McGill Student body, wish to publicly express our sincere thanks and appreciation to Lt. Turner and his colleagues at the Montreal Fire Department for the admirable performance and proficient execution of their duties on the morning of the twelfth of January, thereby saving a human life.

We understand it is to these men to whom Ken is indebted for his very life. We thank you sincerely,

Jack Fabrikant
John DiRe
Leonard DiRe
Norman Germain
Robert Crawford
Norman Courcy

Jay Constantine
David Sparks
Editor's Note: Dean H. N. Fieldhouse has issued an urgent appeal for blood donors for Chong. Donors are asked to go to St. Luke's Hospital today between noon and 3 p.m. and ask for the operating nurse.

Thanks
Editor, The Daily:

Through The Daily I should like to thank all those students who sent Christmas greetings to the Students' Council and myself.

Here's wishing every member of the Students' Society a very happy and successful New Year.

Colin McCallum.

From New Zealand
Editor, The Daily:

I should like to express through the columns of The Daily my de-

lighted appreciation of the telegrams I received from the Council of the MWSAA and the Dept. of Athletics, Phys. Ed. and Recreation and from Miss Bean who showed such kind interest in the Canadian Fencing Championships and B.E. Games Trials.

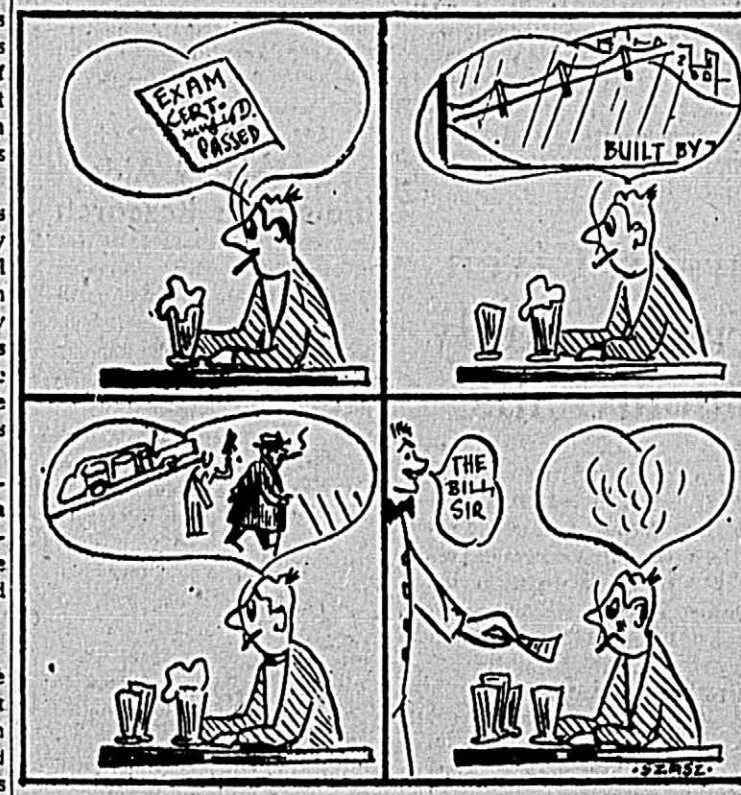

The team has been royally received in Vancouver and there is every indication that Canadian athletes will work very hard to perform creditably.

Betty Hamilton, (Kupic) Canadian Fencing Team, British Empire Games, Auckland, New Zealand.

No Report? 609 Mount Pleasant Rd., Toronto, Ontario, January 10, 1950.

Editor, The Daily:

As one of the Canadian repre-

THE ENGINEER

Les Compagnons

by Paul Horton

Les Compagnons opened its 1950 season on Saturday evening with a performance of "Le Chant du Berceau," a French translation of the Spanish play by Gregorio and Maria Martinez Sierra.

There is little plot and very little action. What there is takes place in a convent of Dominican cloistered sisters. One afternoon an orphan is left in a small basket addressed to the Mother Superior. The young novices are childishly exuberant about this simple yet profound mystery which has entered the cloister; the body of the play is concerned with the effect of this chance happening on the lives of the sisters. Ultimately, of course, the child grows to womanhood and leaves the convent to marry Antonio. The unity of the piece is achieved through emotion rather than action and because of this, success or failure is determined by the capabilities of the actresses.

Two performances were beautifully done. Yvette Thout as the Mother Superior played with quiet dignity and sincerity. As the dominating figure in the play, the character of the Mother Superior must

representatives at the I.U.S. council meeting in Sophia this summer, I met Russ Hamilton, the N.F.C.U.S. observer to the same meeting. He

(Continued on Page 4.)

be invested with kindly authority in both speech and movement. Miss Thout's clear enunciation and ease and grace of movement were admirably suited to the author's conception of the character.

Marcelle David as Sister Jeanne managed to convey with subtle but powerful strokes the essence of the young novice, who, although dedicated to serving God, nevertheless aches to lavish the affection of a mother upon the child. This was a moving and sensitive performance by a gifted young actress.

Madeleine Levesque as the Mother Vicar was the only member of the company who failed in characterization. The dissenting voice of the Mother Vicar becomes authoritative only because of her acid tongue, and Miss Levesque endeavored to convey her dissension with bumbling move and ranting voice.

In the roles of Sister Inez and Sister Marcelle, Blanche Pelletier and Gaetan Laniel played with a sure touch and considerable effectiveness. Helen Loiseleur was perfectly suited to the role as the young girl in love. Unfortunately the men were woefully weak.

Simply was the key-note of the set-curtains, an arch, and a small but dominating crucifix.

Les Compagnons will continue to present "Le Chant Berceau" during the week. It is well worth seeing.

McGill Cagers Overcome Curry 60-57

Redmen Paced by Fraser and Endman Downing Hub Crew

By ART BRONSTEIN

Staving off a last minute spirited drive by Curry College of Boston, Moe Abramowitz fighting Redmen earned their first victory of the New Year, 60-57. Half-time score stood at 27-23 in favor of Curry. The Redmen forged into a fifteen point lead with six minutes re-

excitement was at a fever pitch throughout the contest. Mike Bloom, who played his usually steady game, opened the scoring. Spearheaded by the cool play of Tom Cain, sport-number seventeen, who was high scorer of the evening with 16 points, Curry gradually pulled into the lead and generally displayed a brand of ball handling that would cause the spirit of the most discriminating coach to run high. Two field goals and the same number of free throws, punctuated by Rycroft's two-pointer, were contributed at this juncture by George Brawley of Curry who netted himself 12 points for the evening's fun.

Asher Garbuz, on of Mentor Moe's rapidly improving rookies, and Smiler Wilson put on a determined drive to close the gap which Curry threatened to widen and the half ended with the Redmen trailing 27-23.

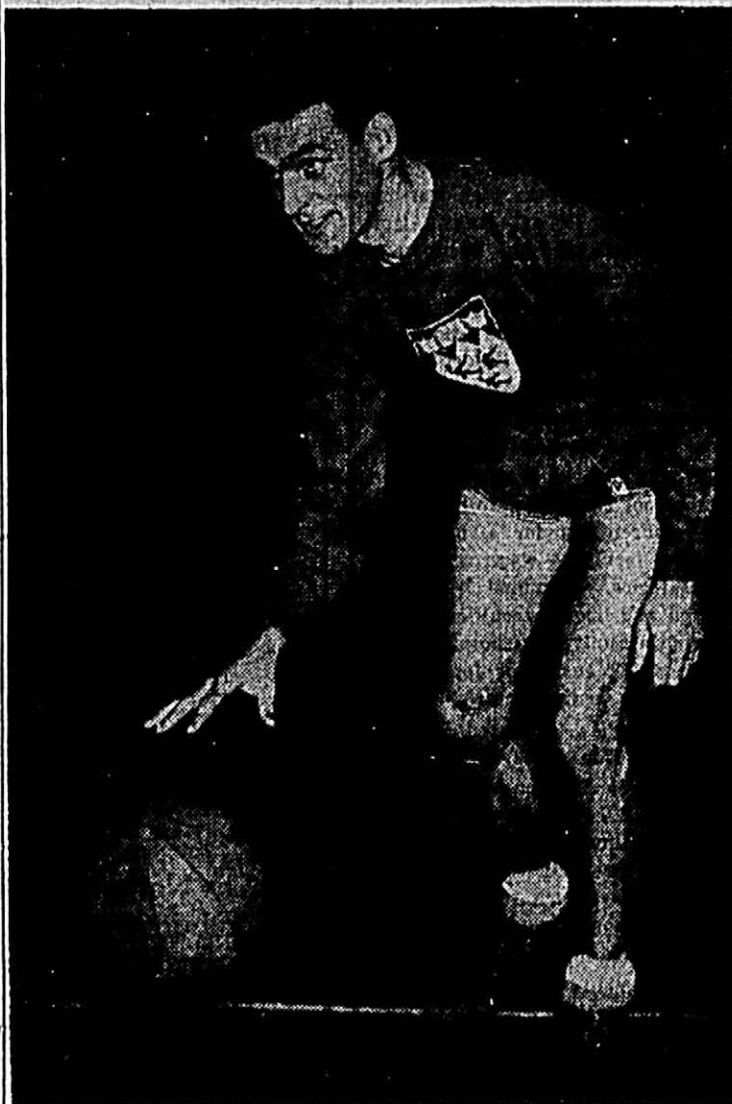

The Red and White jumped into the lead after two minutes of play in the second half, the result of two beautiful set shots from the sidelines by Endman, a couple of baskets by Fraser and one by Merling, countered by a field goal and free throw by Norm Furbush. McGill never lost control of the lead once attained, but Coach Abramowitz was obliged to throw all his first-stringers into action in the last minute of play when Curry staged a desperate attack which almost paid off. Dave Caldwell, late of the football squad, played a key defensive role and has just about reached the peak form he achieved last cage season.

Hillel Party Presents Old Chasidic Customs

The first large event of 1950 for members of Hillel Foundation was a Chasidic Party which was held last night at Hillel house.

The house was decorated to represent a typical eastern European setting of the mid-eighteenth century. Cartoons and placards were used to set the atmosphere. As each couple arrived, the boys were made up in traditional costume, and each person was given a comic nameplate to wear.

The program commenced with a serious discussion of Chasidism, followed by a humorous skit and singing of old Chasidic melodies. Then, through a series of sketches and song parodies, Chasidism was brought "up to date," via South America and the southern United States, to the present day at Hillel. Traditionally, Chasidic customs separated men from women in all public places, however, Hillel's director, Rabbi Samuel Cass, in the role of a great modern leader of Chasidism, cut the separating ribbon to the great joy of all present. The remainder of the evening was devoted to consumption of refreshments and the party was con-

BUD FRASER

Varsity, Redmen Clash In First Squash Tournament

The McGill Squash team will face Toronto on Athletics Nite II feature on Saturday, Jan. 21. The match will comprise part of the newly formed "Canadian Intercollegiate Squash Tournaments" activity. The young organization is composed of McGill, Toronto, R.M.C. and McMaster, with Western as a possible entry.

The McGill squad is largely a veteran organization and has been ranked with the finest ever to represent the university in competition. Their recent activity has demonstrated that the squad is a very strong one. Their competition has been of an exceptionally high calibre. They engaged Yale and Harvard this year, and these "Ivy League" schools are placed one-two in the States' squash rankings. The match against Harvard was held at the Currie Gym on Athletics Nite I and was an

exciting series of competitions in which the McGill entry came close to upsetting the highly rated maroon squad. The play of the team even in defeat was excellent. The squad is led by brothers Ham and Red Quinn. Ham last year emerged victorious in the Dominion Junior singles championship matches. These boys both won their matches against Trinity this year, and are rated one-two on the squad. Pete Haller rates No. 3 on the squad and he was a big gun in the Trinity contest, winning his game. Mike Measures No. 4 was closely edged by his Harvard opponent as was teammate Dick Pearce No. 5. Gary Goodall, No. 7 is a veteran of five years of squash competition under the McGill banner and won his game against the Harvard squad. Mike Brodeur is the sole rookie he shows great promise and boasts victories over his opponents from both Harvard and Trinity. Jim Digby No. 8 has been very potent with his racket this year, conquering his Harvard opponent after dropping close ones to Yale and Trinity. Big Don Alkin a former hoop star is also with the squad and rated a top-flight performer.

The Toronto squad is a strong one as always, and are a threat for intercollegiate squash honors this year. The contest will certainly produce the familiar fierce competition that characterizes all McGill Varsity meetings.

The tough competition already encountered has put the squad in ideal shape for this important contest against its traditional rival.

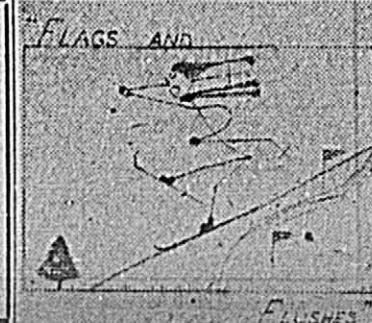

Redmen Grad May Go Pro So Says Vic

"...In fact Mr. Neale of the Philadelphia Eagles approached me about a graduating Senior Redman, and he will be given an invitation to try out with the Eagles next season" stated Coach Vic Obeck. Speculation as to who this unknown Redmen may be is running wild, but nothing is definite as yet.

The only thing that is known that is definite is the choice is limited to six, as only six of last year's football squad are graduates. These candidates for the Mr. X position are Marv Merowitz, Rocky Robillard, John Newman, Dave Hackett, Jim Knubley and Terry Rogers.

The leading candidate seems to be Marv Merowitz, voted as the Redmen's most Valuable Lineman

...Skiing

MR. X?

with star backfielders Messrs. Neale and Obeck were present at the National Coaches Convention. This is a gathering of about all the Collegiate coaches in the U.S.A. and included talks by Frank Leahy of Notre Dame and the United States coach of the year Bud Wilkinson of Oklahoma Uni-

Carlton and Ottawa Win Over Dawson Hoop Squad

The Dawson St. Lawrence-Ottawa piled up an 25-6 lead in the first quarter. The game was fast, and rough, with Ottawa taking the breaks right through. At times Dawson appeared to be closing in, but the Ottawa U. machine proved too much. The final score was Ottawa U. 63-Dawson 45. High scorers were Williamson for Ottawa with 17, Mathews for Dawson with 16. Jim Ripley of Dawson played a consistently good game, ending up with 12 points for the Blue and Red.

On Friday night, at the Ottawa Coliseum, Dawson took on the Carlton Ravens, as the feature of the Carlton Athletics Night. The game was closely fought with Carlton leading 21-20 at half time. They were ahead 43-31 with only five minutes left to play, when Dawson began to turn on the pressure. Long sets by Dawson broke up the zone defence, and Carlton's lead was cut to a close 46-45. With 30 seconds left to play, Carlton sank the necessary foul shots to give them the game.

High man for the winners was Fallus with 15 points, with Pat Ross-Ross sinking 14 for Dawson. Warty Rezetick with 13, and Ron Mathews with 12 were the other big Dawson scorers.

The Dawson line-up and scoring was — Yamashita 5, Taylor 0, Ross-Ross 14, Rezetick 13, Ripley 0, Mathews 12, Causo, Uchida 1.

Saturday evening, the action shifted to Ottawa U. gymnasium. The Ottawa boys started fast, and

Dawson Inter And Senior VolleyBall

The Dawson Senior and Inter-volleyball teams invaded Ottawa over the weekend. Each of the teams played two sets of three games each, one Friday the 13th, and the other on Saturday, the 14th.

On Friday night, volleyball took over the Central YMCA gym. The Dawson "B" squad showed promising volleyball form as they downed the YMCA Senior Business Men's team by decisive scores for three straight games.

The Dawson "A" team, better known as the "Golden Greeks," then took over the gym against a powerful YMCA Senior Men's team. In this close series, Dawson came out winner by 15-13, 11-9, 15-12.

Saturday afternoon, both squads moved out to the Rockcliffe gym. The Dawson "A" team defeated the Ottawa RCAF by scores of 5-1, 15-6, and 15-12. The seniors showed some of the form that carried them to the Eastern Canada finals, with good spiking by all members of the team.

The Dawson "B's" took over to down Army by scores of 15-13, 15-6, 15-13, coming from far behind to take the third game.

The line-ups for the Dawson teams are:

Dawson Seniors: George and Jack Nikolaidis, George Naoum, Andy Stratigopolus, Alec Meleopolus, and Johnny Candlidis. Dawson Inter: Len Rudy, player-manager, Dan Klepper, Winston Mahatou, Norm McGhee, Al Chaves, Al Frossard, Dave Newman, Hilly Jason, and Ken Detlor.

U of M First As They Lash Queen's 9-5

Carabins swung right on up the ladder of hockey success into the top of the league standings as they swamped the boys from Kingston with a 9-5 lashing down at the Verdun Arena Saturday night.

The flying University boys were never in any trouble as they picked an early lead with three goals in the first period, while the Gaels were blanked in the opening stanza.

The Gaels got two in the second but this was more than offset as the Carabins managed to put five more tallies past the hapless Queens' netminder. Again the Kingston squad tried mightily in the third frame as they got three goals in a row in a burst of speed and power. U of M got their final tally early in the period and from then on the Gaels played a much better game.

Scorers for the Blue and Gold were Emilem, Perrault, with two apiece and Flynn, Bourassa, Pinard, Bouldand and Lazure with one each. Keys go two and Wagar, Hurley and Robertson one each for Queens. This win gives the U of M team a two point lead over the Varsity Blues in the league standing.

3 McGill Graduates Granted Fellowships

New York, N.Y., Jan. 14. — Research fellowships to three post-graduate students at McGill University and one at the University of Montreal were announced here yesterday by the American Heart Association.

The three McGill winners are: Dr. Louis Horlick, research worker in arteriosclerosis, Dr. Torrence P. B. Payne, fellow in arteriosclerosis and Dr. Douglas O. W. Waugh, fellow in arteriosclerosis.

The one-year fellowships are a part of 34 awards totalling \$140,000 from funds contributed by the American public to the 1949 Heart Campaign in the United States last February.

LOU ENDMAN

maining in the contest only to have Curry fight back to within three points of tying it all up as the game ended.

Played before a full house of approximately 2,000 spectators, this was the curtain-raiser of one of the finest double cage bills witnessed at the Currie Gym. In the night-cap that went into overtime, Montreal Y.M.H.A. tasted defeat at the hands of Troy J.C., 58-56, failing to maintain the lead held at half time.

High scorer for the Red and White was Bud Fraser who started at centre and played a standout game both offensively and defensively, picking up 14 points. Lou Endman, guard, enjoying his second year of ball in senior company, played one of his best games to date and is currently living up to all pre-season predictions. Lou potted five field goals to place second in the point-getting division.

First Half Dr. Miller, President of Curry College, tossed up the opening ball of the game. From that point on

NOTE: This form should be left at the Tuck Shop in the Union BEFORE 5 p.m. Wednesday, January 18.

Letters—P. 2

spoke there along with the other representatives and observers from many student bodies all over the world. Along with them he discussed the problems facing the student youth. I can say that he participated at this meeting as an equal, although representing a group of students which as yet has not made any concrete move to affiliate to the I.U.S.

Before leaving Sophia, Hamilton promised to report back to the Canadian students which he represented, and present to them the recommendations which he as N.F.C.U.S. rep. and the I.U.S. steering committee had agreed upon. This happened last September. It is now the beginning of the new year, and as yet I have not heard of, nor read in the University press any statement by Russ Hamilton.

Since the N.F.C.U.S. went to so much expense to send an observer to Sophia I feel that Hamilton has an obligation to fulfill, and that is, to report back to his fellow students so that we may discuss fully the report and decide whether or not to accept his recommendations. They were good recommendations and worthy of seeing the light of the press. Right now, in the midst of the discussion concerning the London conference called by the British N.U.S. at which Canadian students were represented, to discuss affiliation to I.U.S., this report is doubly important.

Right now, we, as Canadian students, are not participating as fully as we should be on the international field. Only in strengthening the international ties with other democratic student bodies can we build effectively our own N.F.C.U.S. Reva Steinberg.

Hockeyists—P. 1

5-2. Queen's had a good chance when Andrews of McGill went off for tripping followed by Harley and Taylor for fighting, but McGill's defence held. Andrew came back on the ice to team up with Russell for McGill's sixth goal. Russell let a hard drive go from the blue line and Andrew bore in fast, outfooting the Queen's defence, and sunk the rebound, and the period ended with McGill leading 6-2.

The third period slowed up considerably with McGill and Queen's both adding one tally. Kent deflected Gene Robillard's shot into the net, while Gordon for Queen's dented the twine with a short shot from a scramble in front of the net. Reynolds was watching the action from the cooler at the time.

The summary:
Hazzard scored 2xKd.
Queen's: Goal, Urie; defence, Battochio, Asy; centre, Robertson; wings, Wagar, McKelvey; subs, Sly, Hewes, Keenleyside, Munay, Kemp, Gordon.

Puro.
McGill—Goal, MacLeannan; defence, Tilley, Sanderson; centre, J. Robillard; wings, Marshall, O'Neill; subs, Zemel, Reynolds, Murphy, Kent, R. Robillard, Andrews, Taylor, Russell.

First Period
1—Queen's, Murray (Hewes, Puro) 3.54
2—McGill, G. Robillard (Tilley, Murphy) 8.53
3—Queen's, Kemp (Hewes) 9.40
4—McGill, O'Neill (R. Robillard, Sanderson) 12.54
5—McGill, Tilley (G. Robillard) 17.12

Penalties: Puro, Marshall.

9—McGill, Kent (G. Robillard, Murphy) 6.34
10—Queen's, Gordon (Keenleyside, Harley) 18.44

Penalties: Marshall, Zemel, Reynolds, Sanderson (major), Gordon (major).

Varsity—P. 1

the Dufferin Division of the Connaught Laboratories, 12 miles from the campus.

Grant To Dr. Rhodes
Dr. Rhodes and Dr. C. E. Van Rooyen, who are in charge of the virus lab., collaborated in writing the book "Virus Diseases of Man." "It is the definitive work in the field," Dr. Dofries says. "Through the work of these two scientists this grant comes to the University. The grant is specifically to Dr. Rhodes because he is the one who concentrated on polio research."

Under the terms of the grant, the Canadian scientists will try to develop a method for producing an anti-serum especially rich in polio antibodies. Recent reports from other laboratories have indicated the possibility of increasing the amount of polio antibodies in serum through the use of certain chemicals. If such a high potency anti-serum (high titer anti-serum, is the scientific term) can be produced, it will then be tested in animals to gauge its protective effect against polio.

Other Anti-Serum Success
In commenting on the research, Louis A. Wehle of Rochester, March of Dimes Chairman for New York, pointed out that similar anti-serums have been prepared and are successful against other diseases such as rabies.

He added that the University of Toronto grant brings the total to nearly \$23,000,000 spent by March of Dimes funds since 1938 for research and education in polio.

Politics—P. 1

Denial of the right to participate in political activity within the community, particularly the university community, is denying the citizen not only of one of his rights but of one of his responsibilities.

Veteran students, generally, have been the moving spirits in the political clubs which already exist. The veteran students who in so many ways have added the zest and sparkle to university thought will soon be leaving our universities. Unless the Students' Council recognizes political clubs as official organizations the younger students will be left without the medium which tends towards the development of political maturity.

Since political clubs have not been recognized by the S.R.C., members of these political groups

First Med Class Graduates From University of Ottawa

Ottawa, Ont. — The first class in the Faculty Medicine at University of Ottawa is to graduate in the spring of 1951. The class, which numbers 45, was the first to enter

Femme Fare by Peggy Knowles

Greetings, everyone, and best wishes from the Women's Union. Hope you all had a nice holiday as we did, and that there weren't too many casualties in the exams. Seems impossible that the second term is here already, doesn't it? The way tempus fugit isn't even funny any more. However we're still trying to keep up with it, and several items of interest have been planned for your benefit for the remaining months.

First a reminder to the presidents of all clubs and societies under the W.U. that the first round-table conference of the new year will be held next Monday the 16th at 1.15 p.m. As usual the place will be the W.U. offices in the basement of R.V.C. If you can't come yourself, please send a representative as plans for the coming term are to be discussed.

On Sunday the 22nd a Buffet Supper will be held in R.V.C. As you all know by now, the purpose of these affairs is to bring residents and non-residents together plus any friends you may wish to invite in order to promote friendliness among students. All are welcome, and we're sure you'll enjoy yourselves no end.

Another event posted for the near future is the third in the series of lectures on marriage, which is being sponsored jointly by the Alumnae and the Women's Union. The series so far has proved to be of great interest and the lectures have been well attended. The next one will deal with the legal aspects of marriage, particularly those pertaining to the province of Quebec. The date and speaker will be announced shortly.

A pre-election dance has been scheduled for February. This event is in place of the Christmas dance which the W.U. did not sponsor as usual this year. All the information available at present is to the effect that it will be a Sadie Hawkins affair to be held in R.V.C. Watch this column for more news.

That just about winds up the forecast for this term. Don't forget, any ideas or suggestions are very welcome. You can see a member of the W.U. any day between 1-3 p.m. in the office.

have been meeting behind closed doors in secrecy. Recognition would eliminate this undesirable practice.

Reasons against recognition
Following are arguments offered against political clubs:

There would be a tendency for members of the various political groups to attempt to place candidates in important student executive positions on the campus.

Friction between the three parties might produce "hard feelings" amongst the students.

When veteran students leave there will be no further interest

the Faculty which was founded in 1945. This spring the members of this first class begin their year of internship at the Ottawa General Hospital.

Housed in the rambling barracks on King Edward Avenue, wartime home of the CWAC, Ottawa University's fast-growing Faculty of Medicine has 267 students from across Canada and beyond with a staff of close to 100 part-time and full-time members. Students and faculty alike are possessed of a keen pride in their young school.

New Medical Centre
Even within its present quarters, the school contains a full measure of requirements for a university medical faculty—classrooms, eight laboratories, an animal house, research and library facilities and an expanding university hospital. And there are plans afoot for a new and larger medical centre.

The school's affiliated hospital—Ottawa General—will have 600 beds on completion of its new wing and 300 of these will be available for clinical teaching of fourth and fifth year students. It is also expected that such teaching facilities will soon be made available at the Civic Hospital.

Appointments to the medical staff of the General are made by its governing body on the recommendation of the medical faculty.

Overall administrative problems of this expanding school are in the capable hands of tall, genial Father Lorenzo Danis, dean of the faculty, and a five-man executive council.

More than just the instruction of medical students is under way in the long, low buildings that house Ottawa University's medical faculty. There is research too.

RADIOACTIVE SLEUTH
In one building, for example, a radioactive sleuth is out to track down the secrets of tooth and bone tissue growth. The detective in this case is radiophosphorus or P32 as science labels it.

A golden hamster—a little, rodent-like animal—is injected with radiophosphorus, then one hour later the hamster is killed.

In politics and the clubs will deteriorate.

Political clubs are organized off the campus so there is no valid reason for the introduction of these organizations on the campus.

Recognition of such political groups would only serve to increase the number of clubs on the campus.

It is held by many that politics are a corrupting influence.

Controversial—P. 1

be able to discuss the topic chosen for the second of the parliaments: that requirements for the bar demanded by the Law Society of Upper Canada are obsolete and should be brought up to date.

The Charitable Gifts Act will be introduced in the University of Western Ontario this week by the Conservatives, and should it be passed, the Liberals now in control will be deposed.

COMING EVENTS

Items for this column must be typed on a special form obtainable at the Tuck Shop and deposited in The Daily mailbox by the Central Ticket Wicket in the hallway of the Union by one o'clock the day before the item is to appear. The deadline for Monday's paper is one o'clock Friday. Only brief items can be published in this column. Each event may be announced twice only in this column.

JANUARY 16

M.O.C.

The Riding Club of the M.O.C. will meet in the R.V.C. Common Room at 5 o'clock on Monday to discuss plans for the splash party on Friday night of this week.

THIRD YEAR ARTS & SCIENCE

Junior Year Arts and Science are sponsoring an Informal Party tonight in the Union Ballroom beginning at 8.30. The party is open to anyone interested. Dancing, novelty prizes and donuts will be features of the evening's entertainment. Admission will be 25c. Tickets on sale at the door.

CHORAL SOCIETY

Second term registration for all old members will take place this afternoon between 4 and 5.30 in Divinity Hall. It is imperative that you register today, for all music will be given out. Any people who applied first term but were not accepted may also apply again.

JANUARY 17

SCIENCE FICTION SOCIETY

The first meeting of the term of the Society will be held in the Workshop of the McGill Union on Tuesday, January 17 at 8 p.m. The program for the coming term will be made up, and several topics of considerable interest to the members will be discussed. All persons who belong, or who are interested in joining, are urged to attend.

JANUARY 18

HILLEL FOUNDATION

All members of the Hillel Foundation are invited to attend a welcome-back tea which will be held at Hillel House, 3460 Stanley Street at 4.00 p.m. on the afternoon of Wednesday, Jan. 18.

Visit of

NATIONAL RESEARCH COUNCIL

Thursday and Friday, January 19th and 20th, 1950

The National Research Council wishes to interview the graduate and undergraduate students whose names appear below. These interviews will not only be confined to discussion of immediate employment with the Council, but will also deal with fellowships, future research plans etc.

All interviews will be on an appointment basis. Please visit the Placement Service office (now at 3574 University St.) as soon as possible, and a definite time and place for interview will be arranged.

STUDENTS TO BE INTERVIEWED BY DR. W. H. WATSON

MATHEMATICS

POSTGRADUATES Blackmore, W. R. Morantz, D.
Bolton, M. Schiff, H.
Gillis, R. B. Sharp, R. R.
Looker, A. J. Smith, N. E.

PHYSICS

POSTGRADUATES Borts, Robert B. Hopkins, Nigel J.
Boyle, Willard S. Hunt, Donald W.
Eckson, Sidney W. Jackson, Ray W.
Chapman, John H. Johnson, F. Allen
Chapman, Robert P. Kinney, James K.
Clark, Eric N. MacLure, Kenneth C.
Eadie, Frank S. Martin, William
Forsyth, Peter A. Mathison, James F.
Graneden, Max M. Mills, Robt. H.
Gunn, Kenneth L. Moon, James H.
Hay, Donald R. Tilley, Donald
Henry, Wm. H. Vagan, Eric L.
Hiltscheld, Walter Wagner, Sydney
Hone, David W. Whittier, Charles A.

STUDENTS TO BE INTERVIEWED BY DR. G. S. FIELD

PHYSICS

POSTGRADUATES Adams, G. N. Harrower, G.
Bekke, G. Henriksen, A.
Bloom, J. N. Hogg, D. C.
Bloom, M. S. Jaderholm, H. W.
Bloom, M. Kassner, M. H.
Boyd, W. H. Keys, J. D.
Cahill, D. J. Langbein, M.
Chapman, M. H. (Miss) Loomer, E.
Clarke, W. E. Magarby, R.
Cooke, R. W. Petolas, J.
Crowell, C. R. Puxley, A. E. (Miss)
Densmore, A. A. Radley, S. A.
Dunneer, A. G. Smith, B. S.
Griffiths, H. Wanklyn, D.
Hamilton, H. A.

GRADUATING '50 Groves, Jensen, Kerman,

ENGINEERING PHYSICS

GRADUATING '50 Bordon, J. Norton,
Greenberg, J. S. Rudnick, N.

STUDENTS TO BE INTERVIEWED BY DR. J. H. SIMPSON

ELECTRICAL ENGINEERS

POSTGRADUATES Bennett, R. M. Markowski, J.
Carr, E. F. Maleopoulos, N. A.
Eleftheroudakis, P. Odze, W. K.
Fairley, R. Pavlich, M.
Gargas, J. Pavlasek, T. J.
Geddes, L. A. Poznanski, Z.
Groom, G. R. Rosen, C. E.
Hoy, N. A. Sakkellariou, T.
Javid, M. Simmons, E.
Keeping, K. J. Sherman, B. M.
Kerrigan, G. M. Smith, D. L.
Kuhn, B. C. Tal, Y. S.
McKee, D. A.

GRADUATING '50 Andronidis, G.

Bennett, J. S.

Churchill, F. E.

Eastcott, P. de H.

Hawes, D. W.

Kent, K. C.

Lidke, H. B.

MacDonald, J. K.

Noel, J. H.

Rutter, G. B.

Thomas, M. P. M.

Wixon, T. E.

Young, E. J.

STUDENTS TO BE INTERVIEWED BY MR. G. S. LEVY

MECHANICAL ENGINEERING

POSTGRADUATES Bernstein, S. Lane, A. G.
Brown, D. R. Levine, S.
Cham, R. E. Oatway, H. G.
Conrad, R. E. Rice, W. B.
Covo, P. V. Rogers, J. T.
Damecour, C. Ross-Ross, P. A.
Fainstlat, M. Stackiewicz, J. W.
Greenwood, S. Steinhauser, E. G.
Hsiao, K. H.

GRADUATING '50 Alkman, J. L.

Beauchamp, M. R.

Beauregard, J. T.

Bodtker, J. B.
